		Old students : 33
	New students : 16	
5	State and district where programs was. undertaken(Students came across the country)	Mahipalpur, Delhi

ABOUT RITINJALI

Ritinjali, literally meaning 'helping hands' in Sanskrit, is firmly rooted in its philosophy of providing a helping hand wherever needed.

Over the last 27 years, Ritinjali has worked with marginalized groups – slum dwellers, jail inmates, poverty-stricken individuals, and victims of war and natural disasters – through educational and development-related endeavors.

ABOUT SECOND CHANCE SCHOOL

Ritinjali began its intervention in the community of Mahipalpur in 2005, by setting up the Second Chance School.

Ritinjali's Second Chance School is a residential and day school programme for disadvantaged boys between 18-24 years of age who did not get a first chance at education. The transformational programme aims to reintegrate young adults into social and work life in a secure, loving and stimulating environment. It is an incredibly unique and dynamic school catering to the needs of young adults coming from challenging backgrounds during which they have faced poverty, exploitation, and discrimination.

AIM

Our aim is to ensure that the students can stand on their feet and thrive in their social environment. This program is geared towards helping students actualize their potential by providing a stimulating environment, peer support, individualized career plans, contextualized education, health, nutrition, and mentoring.

OUTCOME

The students are transitioned to independent living once they start earning a minimum threshold salary. Ritinjali continues to mentor and support all the alumni of Second Chance School and has, over the years, built a robust network of students, who are economically self-reliant and doing well in their personal journeys.

PROJECT LOCATION AND BENEFECIARIES

Our project is based in Mahipalpur, Delhi, and Jhalawar, Rajasthan and our students are enrolled from across the country from states like Uttar Pradesh, Bihar, Rajasthan, Arunachal Pradesh, Uttarakhand, Jharkhand, Rajasthan, West Bengal etc. along with Tibetan refugees.

Our students come from marginalised communities battling with poverty and discrimination. In order to end the exploitation of daily wage labour and financial insecurity these students are enrolled to become financially independent responsible citizens of this country.

Most of the students have not completed their basic school education and are enrolled in open schooling when they join us.

Onboarding

Classroom Training

Formal Education

Residential Life Skills

Internship

Technical Education

Overall Mentorship

ONBOARDING

- In May 2022, we started inviting applications for the SCS program.
- We got over 40 applications out of which 30 were shortlisted for a personal interview.
- Eligibility to attend the SCS program is students should be between 18-24 years of age. They can commit at least two years to this program. Their parents consent to send students to Delhi and most importantly they are facing challenges and difficulties to complete further education.
- During the personal interviews of students with a panel of Ritinjali members, we gauge the need, intent, and dedication of students. Out of these 20 students were selected to enroll in the program. 15 from across India and 5 from Delhi.
- These 20 students go through background checks, police verification, health checkups, Covid tests, and vaccinations before joining the program officially.
- 5 students are day scholars from Delhi and the remaining 10 students have come to the residential facility in Mahipalpur, Delhi.
- Students belong to various remote villages of Rajasthan, Bihar, Uttar Pradesh, Arunachal Pradesh, and Uttarakhand.
- All students come from varied cultures, religions, caste,s and regions.
- New students started the program from 1st September 2022.

WORK AND LIFE READINESS CLASSROOM TRAINING

Duration: 6 Months (few students need additional months based on their learning curve)

Each student goes through compulsory classroom training to equip them with a solid foundation and exposure to navigate their career paths.

All programs are contextualized for our students and there are timely assessments, evaluations, and reflections to make these programs relevant throughout the period. They make individual road maps for their career and personal life and mentors give guidance and counseling to navigate those maps.

List of training students go through

- 1- Five Areas of development workshops
- 2- PIAIP program
- 3- Computer
- 4- Spoken English
- 5- Expressive arts
- 6- Entrepreneurship program
- 7- Guest Lectures and Life Skills workshops

WORK AND LIFE READINESS CLASSROOM TRAINING

Five Areas of Development workshops- To make students aware and responsible for development in different areas i.e., Cerebral, Spiritual, Emotional, Physical, and Social. They go through 3 month-long workshops to identify their strengths and weakness. Then they build individual roadmaps for the entire two years to help them achieve their goals. Various trainers visit for different domains and students are encouraged to think about their progress in a wholistic way.

Spoken English- Students are enrolled in a spoken English course to become well verse in this language. It enhances their employability and help students gain confidence through public speaking and communication. They go through more than 250 hours of intense training and practice. Classes were scheduled 4 days and 8 hours a week. Most of our students transitioned to next level of spoken english.

WORK AND LIFE READINESS CLASSROOM TRAINING

PIAIP- Pallavanjali Institute of Actualisation of Individual Potential is a program aimed at students to develop their personalities, provide exposure, grooming etc and become ready for work and social life in general. This programme also involves lots of exposure visits and trainers coming in to take master classes. Some of the activities include yoga, cooking, baking, english, IT, arts, communication, sports etc.

WORK AND LIFE READINESS CLASSROOM TRAINING

Expressive arts- Students are introduced to different art forms and expressions. They learn to recognize and express their feelings in a healthy manner. These classes bring them closer to oneself.

Computer classes- Students are enrolled in a certificate course in the basics of computer and IT to help them gain employment as these skills are required in any field these days.

WORK AND LIFE READINESS CLASSROOM TRAINING

Entrepreneurship program- Students go through entrepreneurial training in order to nurture that mindset and to implant the seed of an ethical and holistic approach toward business development initiatives. We really want to foster, nurture, and celebrate a culture of entrepreneurship in the Second Chance School.

Many students want to go back to their villages and do something locally so we are ensuring that they have the right tools and education to apply themselves successfully.

WORK AND LIFE READINESS CLASSROOM TRAINING

Guest Lectures and Life Skills sessions- Students are introduced to different concepts and practical skills through these workshops. They are involved in many important life questions which broaden their horizon and help them take deep insight in human life. We have covered topics such as What is Success ? What is Identity ? How to manage time ? How to do bank work etc.

INTERNSHIP, TECHNICAL EDUCATION AND BUSINESS DEVELOPMENT

After completing the classroom training, students then move into the second phase of learning that is more focused and individualized as per their chosen career paths.

Based on their intent, aptitude, and performance, students are placed in an Internship or Technical course after completing the classroom training. Some of them choose to nurture their business models. Duration of Internship and technical courses varies from student to student depending on the employer/institute/career students have chosen.

INTERNSHIP

An internship is provided in various fields such as IT, Hospitality, Healthcare, Administrative and Logistic fields depending on the interest and aptitude of students.

Clockwise- Student visit to Oberoi, Devesh, and Deepak interning at Oberoi hotel, Jaideep interning as a receptionist at Masoodpur Mohalla Clinic, Manish interning at Astha Healthcare near Aerocity.

TECHNICAL EDUCATION

Technical education is provided to students on a scholarship basis at various partner institutes like Jetking, Ducatt, IPSM, Indian School of Hospitality, MAAC, Vivo healthcare, Visan Hospitality, ATDC, Industrial Training Institute.

Students are able to do 3-12 months diploma or certificate courses in various fields that help them gain good employment.

RESIDENTIAL LIFE SKILLS

Our hostel in Mahipalpur with over 40 students becomes a very unique spot for cultural exchange, learning through peers, and collaborative work. We also conduct various day-to-day activities to help students connect with each other and with the program. Sports and recreational activities are part of the curriculum and help students unwind after a long day.

RESIDENTIAL LIFE SKILLS

We also organize day trips and weekend educational trips for students. They also participate in artwork and learn new art forms in India through monthly workshops.

RESIDENTIAL LIFE SKILLS

Students are taught important life skills like cooking, cleaning, and laundry as all are responsible for the maintenance of the hostel as well as themselves.

We also celebrate festivals, birthdays, and Ritinjali Utsav together to cherish our accomplishments and learnings.
